Product Description

Multipurpose self-fusing silicone tape

- An advanced tape that creates an airtight, watertight seal in seconds.

- Tolerates extreme temperatures from -54°C to 260°C.
- Resists UV, moisture, oxygen, oil, most chemicals, and salt water.
- Can be applied under water.
- Acts as an insulator up to 400 volts/mil.
- Stretches by 400%, moulding easily around irregular shapes.
- Will never leave a sticky residue!
